Muktangan English School and Jr. College

*04/2014 - 03/2015*       *Pune, India*

## SKILLS

C   C++   Java   Python   MySQL   HTML   CSS   Git and Github   Web Development   MS Office   Good Presentation Skills   Good Communication Skills

## PROJECTS

### Student's Academic Success Prediction using Machine Learning (Final Year Project)

- Simple machine learning project to predict the academic success of student. Used SVM algorithm to predict the success. Using educational machine learning methods, we could potentially improve the performance of students more efficiently. Students, educator and academic institutions could benefit and also have an impact.
- ROLE :
- Performed a key role in development process of windows application.
- Performed a key role in designing front end.
- Operating system - Windows 10.

## CERTIFICATES

**Certificate Of Merit (04/2018 - 09/2018)**
*C Programming Language*

**Python for Beginners (09/2021 - 02/2022)**
*Python Programming Language*

**C++ Course (07/2021 - 02/2022)**
*C++ Programming Language*

**Java Course (12/2018 - 02/2019)**
*Java Programming Language*

## LANGUAGES

**English**
*Full Professional Proficiency*

**Hindi**
*Native or Bilingual Proficiency*

**Marathi**
*Native or Bilingual Proficiency*

**German**
*Elementary Proficiency*

## INTERESTS

Coding   Reading   Art   Gaming
